

Configuration Overview (SPRO)

1 Define Notification Type (Q2)

Path:

SPRO → Quality Management → Quality Notification → Notification Creation → Notification Types → Define Notification Types

Key Points to Configure:

- Copy existing type (e.g., Q2) if customizing
- Set number range
- Activate partner functions (Vendor, QM Responsible)
- Enable task & activity log
- Allow defect recording fields

2 Define Catalogs

Path:

Quality Notification → Notification Processing → Catalogs

You may configure:

- Catalog 1 – Defects
- Catalog 3 – Tasks
- Catalog 5 – Causes
- Catalog 9 – Activities

3 Partner Functions

Path:

Quality Notification → Notification Processing → Partners

Ensure Vendor partner role is enabled.
